The **Consortium for School Networking (CoSN)** is honored to support the work of current and aspiring superintendents and district leadership teams through the **Association of Educational Service Agencies** in leading all aspects of digital learning transformations.

CoSN AI District Leadership Summits

To help district leaders navigate the shift to AI, CoSN created the AI District Leadership Summits. These events offer a unique opportunity for leadership teams to build a practical roadmap for AI integration. At the summit, district leadership teams will work together to develop a six-to-twelve-month action plan, strategies to align AI with district priorities, and ethical and equitable practices for your schools.

Special Fall Offer: Pay one standard rate for your first district registrant, then enjoy reduced pricing for every additional team member. Learn more and access the registration page for each of the scheduled summits:

Charlotte, NC | October 8–10: **https://www.cosn.org/event/ai-district-summit-charlotte/**

CoSN/AASA edLeader Panel Broadcasts on the *CoSN 2025 Driving K-12 Innovation Report*

On Monday, September 8, 2025, CoSN, in partnership with AASA, launched Season 8 of the EmpowerED Superintendents edLeader Panel Series, sponsored by ClassLink, and broadcast on edWeb.net. Season 8 – which will run through March 9, 2026 - began with a two-part series focused on *CoSN's 2025 Driving K-12 Innovation Report*, which illustrates the hurdles, accelerators and technology enablers that drive technology innovation within school district settings.

Part 1 of the two-part series on the *CoSN Driving K-12 Innovation Report* – which aired on Monday, September 8, 2025 – focused on the current hurdles (challenges) and accelerators (megatrends) impacting innovation in K-12 education. The September 8 broadcast featured three leading edge superintendents who shared their perspectives on how two of the three topics covered in the *CoSN 2025 Driving K-12 Innovation Report* play out in their school districts. The superintendent panel included Dr. Karen Cheser, 2025 EmpowerED Superintendent of the Year, who serves as Superintendent of Durango Public Schools, Colorado, Dr. Kelly May-Vollmar, Superintendent, Desert Sands USD, California, and Mr. Glenn Robbins, Superintendent of Brigantine Public School District, New Jersey. Ms. Laura Geringer, CoSN Project Director for the CoSN Driving K-12 Innovation and EdTech Innovation Project, also joined the panel for the initial broadcast of the two-part series. Ann McMullan, Project Director for the CoSN/AASA EmpowerED Superintendents Initiative, serves as the panel moderator.

Free registration to access the recording and/or podcast versions of the September 8 broadcast is available at: **https://home.edweb.net/webinar/supers20250908/**

Part 2 of the series highlighting the *CoSN Driving K-12 Innovation Report* airs on Monday, October 6, 2025 at 5:00 pm Eastern Time. The three superintendents who were featured in Part 1 return for the October 6 broadcast. The focus of the October 6 edLeader Panel broadcast will be on three specific technology enablers (tools) that were identified in the *CoSN 2025 Driving K-12 Innovation Report*: 1) Generative Artificial Intelligence, 2) Analytics and Adaptive Technologies, 3) Untethered Broadband and Connectivity.

The superintendents will share how they lead each of the identified technology enablers in their school districts and the impact those technology tools are having in their school districts.

Free registration for the live broadcast and the recording and podcast versions following the live October 6, 2025 broadcast is available at: **https://home.edweb.net/webinar/supers20251006/**
